\$360 REBATE When you buy six MINITOR V pagers

Performance when seconds count.

It's the most important quality you should demand in a pager — reliability. When an urgent call goes out, there should be no doubt it will be received. To meet this expectation, the MINITOR V two-tone pager was designed to:

- Receive signals consistently over a wide area, even in fringe or weak signal areas
- Withstand driving rain, tough work environments and heavy use

The MINITOR V features an expanded number of alert tones and up to eight minutes of stored voice capacity. No wonder hundreds of fire departments put their trust in Motorola to make sure the page goes through.

Keep your team in contact and give your budget a boost.

Fire departments and other rescue responders rely on MINITOR V pagers to deliver messages reliably and consistently.

Now through August 31, 2009, you can receive a \$360 rebate with the purchase of every six units. Don't pass up this opportunity!

MINITOR V Two-tone Pager

No one knows more about
wireless communication
than **Motorola**.

MINITOR V features include:

- **Tremendous stored voice capacity.**
8 minute recording time is one of the longest in the industry.
- **Rugged dependability.**
Meets Military Standard 810, Procedures 1 for driving rain. UL Certified as Intrinsically Safe for hazardous locations. Division 1, Class I, Group C, B, Class II, Group E, F, and G.
- **Bandwidth programming options.**
Narrow or wide-band channels for both UHF and VHF.
- **Superb paging sensitivity.**
Consistent reception even in fringe or weak signal areas.
- **Expanded alert tones.**
Supports 8 two-tone pairs, 4 long-tone alerts and 10 different musical alerts.

And now through August 31, 2009 is the time to buy, with every six MINITOR V pagers you buy.
